

FOR IMMEDIATE RELEASE

April 18, 2024

[Humphrey, NE] – Midstates Data Transport, LLC (d/b/a Stealth Broadband), northeast Nebraska’s leading provider of high-speed Internet services, is pleased to announce that fiber Internet service will soon be available in Humphrey.

The Humphrey Fiber Internet project comes in response to the pressing need for reliable, high-speed internet services in rural Nebraska. In an increasingly connected world, access to fast and stable internet is no longer a luxury but a necessity, enabling residents to access educational resources, healthcare services, job opportunities, and entertainment options on par with urban areas.

Key features of this project include:

- **Lightning-Fast Internet Speeds:** Humphrey residents will soon enjoy faster Internet speeds, perfect for streaming, gaming, remote work, and online learning.
- **Reliability:** Say goodbye to Internet outages and disruptions. Our fiber-optic network offers unparalleled reliability, even in adverse weather conditions.
- **Affordability:** Stealth Broadband is committed to ensuring that high-speed internet is accessible to everyone. Our pricing plans are tailored to suit various budgets, ensuring that no one is left behind. Stealth also participates in the Lifeline program, a federal plan designed to aid families and households struggling to afford Internet service.
- **Expanded Coverage:** We are continually expanding our network to reach more communities in rural Nebraska, bringing the benefits of fiber Internet to as many households as possible.
- **Local Support:** Stealth Broadband takes pride in providing exceptional customer service. Our local support teams are readily available to assist customers with any inquiries or technical support needs. We have offices in Norfolk, Neligh, Humphrey, and Blair, with a technical support team on-call 24 hours a day, seven days a week, 365 days a year.

Stealth Broadband understands that access to high-speed Internet is not just about connectivity, but about fostering economic development, education, and community growth. We believe this project will serve as a catalyst for positive change in rural Nebraska, unlocking new opportunities and enhancing the overall quality of life.

Construction has started and you will soon be getting an informational hanger on your door. Installations are expected to begin in late summer 2024. If you are a current customer, please contact us to be added to our list so you will be among the first to be changed over to a fiber connection.

Stealth Broadband will have three fiber packages available:

- \$55/mo for 500 Mbps*
- \$75/mo for 750 Mbps*
- \$95/mo for 1 Gig*

*These prices are available when you agree to a two-year contract. If not, add \$5/mo, plus installation fees.

To learn more about Stealth Broadband and this project, please call 402-347-1010, stop in one of our offices, or visit www.stealthbroadband.com.

About Stealth Broadband:

Stealth Broadband is a privately funded broadband company, founded by professionals in the telecommunications industry. In 2016, Stealth unveiled its fiber optic and wireless technologies in the unserved and underserved areas of northeast Nebraska. These technologies have allowed residents and small businesses access to exceptionally high speeds, with no data restrictions, at a reasonable price. Stealth is a 100% Nebraska-owned business with offices in Blair, Neligh, Norfolk, and Humphrey.
